

Year Three Newsletter

26/01/18

This Week

English: The children started a new topic this week of Instruction Writing. We have focused on the features of instruction writing and used these to write a set of instructions about how to play a game.

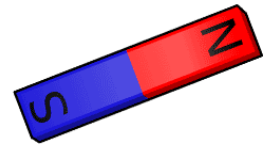

Maths: We have practised dividing by playing games such as, Snakes and Ladders and Connect 4.

Topic: In Scrumdiddlyumptious the children have looked at Fair Trade Products and why people buy them instead of Non-Fair Trade Products. They created an advert to persuade people to buy Fair Trade.

Next Week

Science: We will continue with our topic of magnets and forces by investigating the strength of magnets. The children will be carrying out an experiment, predicting the outcome and recording their results.

English: The children will get the opportunity to write their own instructions and edit them to ensure all the features have been included.

Maths: The children will start to use their knowledge of multiplying and dividing to solve every day problems.

Homework

Spellings: Children have been given a list of spellings according to their learning needs to practise at home for a spelling test on Wednesday.

Maths: Children have been given a 'Colour the Division' game to play with a family member.

English: Find a recipe for a smoothie, print or copy it out and label the features of instruction writing we have learnt about this week.

Topic/RE/Science: Children should design their own 'scrumdiddlyumptious' smoothie which must include a banana. They should write a set of instructions on how to make and draw a picture.

Notices

SMOOTHIE: Next week we will be making a smoothie using different fruits. Please bring in a banana and one other fruit of your choice so that you can make it. We will provide the fruit juice that is also required.

Have an enjoyable weekend!

Mrs Hassett, Miss Hall, Mrs Mallard-Shaw and Mrs Blomfield
