**LEARNING TOGETHER RESPECTING EACH OTHER**

## This Week:

In maths this week we have been developing our understanding of statistics. This has involved us looking at, and interpreting, different ways of displaying data such as pie charts, pictograms and scatter graphs. We also looked at different terminology associated with data such as mean and mode and how to calculate these.

This week in English we began writing our next portfolio piece based on information texts. We had to imagine we were an owner of an unusual animal called a miptor which we have become experts on as we have cared for this animal for a long time. Using this expert knowledge, we are going to write a guide for looking after a miptor. We began by developing our toolkit and thinking about the advice and information that a new owner of a miptor would need to know.

## Parents' Evening

Parents' Evening will take place next week on Tuesday and Thursday. Please make every effort to attend these, where you will be able to discuss your child's progress and what their next steps are. This is also a great opportunity for you to ask any questions regarding SATs that you may have. If you are unable to attend please speak directly to us to make an alternative appointment.

## Next Week:

Next week in English we will be continuing with our miptor guides. We will be looking at how to extend our sentences within our paragraphs to add more detail and how to use more ambitious punctuation.

In maths we will be revising fractions as well as looking at how to convert between fractions, decimals and percentages. We will then look at some SATs style questions.

## Stars Of The Week

Luca we are so impressed with your effort this week in lessons. Mr Power has been blown away with your great contributions in class and how you have shared your ideas with everyone.

Anaiya-Lily your recent efforts to develop your confidence have not gone unnoticed. We love that you are contributing more in lessons and when you were in maths this week creating your statistics poster, you ensured everyone was involved.

## Reminders

Afterschool clubs begin next week - please speak to us if you need a timetable.

To celebrate St Georges Day on Monday 23rd, we are having a non-school uniform day.
