

Little Reddings
Primary School

Nursery

The

Nursery Team

Contact Info

Please remember to contact the class teacher directly with any questions you may have. You can do this through the school office.

The email is admin@littlereddings.org.uk

Alternatively you can call the school office on 0208 950 5388 to leave a message.

You can also contact class teachers through the year group email which is nursery@littlereddings.org.uk. This will be checked weekly.

Please remember drop off and pick up is for quick questions only as we need to ensure that registration is completed on time.

Uniform

School uniform is expected every day. You can find the full list of uniform on our school website. This will also give you information on how to purchase and order uniform.

Please ensure that your child has a spare set of clothes in school in case they have an accident and that all their clothing is clearly labelled.

Collection from school

If you are unable to collect your child from Nursery for any reason, please ensure you let a member of the team know who will be collecting instead. Alternatively you can call the office to let us know and share a password so we are confidently sending your child home with a safe adult.

Home Learning

Your child will be very busy acquiring new knowledge in school and it is important for their language development to talk to them about what they have learned each day.

As time progresses, we will inform you about the different skills they are mastering in school in order for you to support them with these at home as well.

The most important thing to do from today is to read a bedtime story to them every night.

Lunches and Snacks

In Nursery your child will receive a free snack daily if your child wishes to have one.

If your child is staying for the afternoon sessions, please ensure that you provide a healthy lunch and a drink for your child. The lunchboxes will be kept on the lunch trolley just outside the classroom door. Payments for the afternoon sessions is made through SIMS.

All children must come to school with a labelled water bottle every day– these will be kept in the class and your child will be able to access their bottle whenever they need to.

If you would like specific detail about your child's curriculum content you can access the curriculum progression information for each subject area on our school website. ...

English

This term we will be continuing with our story 'On Sudden Hill', We will be looking at extending our vocabulary related to emotions and friendships. We will also be getting very creative by acting out the story, using a variety of materials to create our own dens and structures, similar to those in our story. This focus will create an abundance of opportunities to practice our communication and language skills

We will also be working towards being able to recognise our names and trying to form these letters correctly.

Maths

This term in Maths we will be singing lots of number songs to develop our understanding of numbers and we will be starting to count and recognise numbers up to 10

Communication and Language

Within our group times, the focus of our learning this term will be to learn and use vocabulary in order to express ourselves clearly.

This is a crucial skill for our children to master and through a variety of fun and exciting games, we will aim to rapidly broaden their understanding of spoken language.

Understanding of the World

We will be focussing on the children's diverse backgrounds in order to celebrate our cultural differences and experiences. We will be practicing very hard for our performance later in the term!

Expressive Arts and Design

As always, we will practice mark making (painting, drawing, cutting and sticking) and linking meaning to the marks they make. This will eventually lead to forming some recognisable letters and more detailed drawings and creations.

Physical Development

We will be focussing on developing our gross motor skills during our active sessions outside. This will enable children to develop their spatial awareness as well as their hand-eye-coordination.

We will also have sessions focussed on looking after our bodies and keeping ourselves healthy.

Personal, Social and Emotional Development

In PSHE this term, we will be focussing on our newfound skills and what we can do to develop them even further. We will be talking about the things we are very good at, what we need to practice a bit more and trying new things that might seem a bit daunting to us at the moment.
